Index

Acanthonotozomatidae,
  diet, 343-344
achondrites, 3-14
acoustic sounding,
  atmospheric boundary layer, 363-372
aerology, 169-178
Alexander Island, northern,
  geology, 167-168
Alexandra Mountains,
  algae and other terrestrial biota, 215-224
algae, 109-118, 125-131, 215-224, 225-234, 313-316
amphipod,
  diet of *Gnathiphimedia mandibularis*, 343-344
angiosperms, Cretaceous,
  at Livingston Island, 239-248
Anglo-Bulgarian project, 167-168
ANNEXSTAD, J.O. (*with* A.L. GRAHAM), 3-14
anoxic sedimentation,
  Nordenskjöld Formation, 269-278
Arctocephalus gazella, 317-324
Aspidorhynchus sp., 57-64
atmospheric boundary layer, 169-178
  acoustic sounding, 363-372

bacteria,
  in soil samples from Wilkes Land, 225-234
Bailey Peninsula,
  field measurements of lichen photosynthesis, 31-34
Bathyraja sp., 317-324
Beardmore Glacier area,
  Early Palaeozoic history, 249-260
BEHRENDT, J.C., 191
bending moment,
  floating ice tongues, 157-163
BENNAT, H. (*with* J. SIEVERS), 351-362
benthic mats,
  in McMurdo Ice Shelf ponds, 125-131
bioenergetics,
  Eudyptes penguins, 15-21
biogeography,
  Ectemnorhinini, 23-30
Bird Island,
  studies of chick feeding in diving petrels, 337-342
Birkeland currents, 193-203
blood of teleosts,
  molecular adaptation to environmental conditions, 119-124
blue ice,
  meteorite discoveries, 3-14
book reviews,
  Antarctic ocean and resources variability, edited by D. Sahrhage, reviewed by D.G.M. MILLER, 373
  Antarctica: a catalogue of maps and charts produced by Scientific Committee on Antarctic Research, reviewed by P. SEARLE, 291-293
  Antarctica, the last frontier by Richard Laws, reviewed by L. SØMME, 373-375
  Antarctica: soils, weathering processes and environment by I.B. Campbell & G.G.C. Claridge, reviewed by D.W.H. WALTON, 77
  Biology of polar bryophytes and lichens by R.E. Longton, reviewed by L. KAPPEN, 182-183
  Biology of the Vestfold Hills, Antarctica edited by J.M. Ferris *et al.*, reviewed by W.F. VINCENT, 180-181
  *BIOMASS Scientific Series No. 9. Biology and ecology of the Antarctic krill (*Euphausia superba *Dana): a review* by D.G.M. Miller & I. Hampton, reviewed by A. CLARKE, 375-376
  High latitude limnology edited by W.F. Vincent & J.C. Ellis-Evans, reviewed by J.P. SMOL, 291-292
  The Greenpeace book of Antarctica: a new view of the seventh continent by John May, reviwed by R.I. LEWIS SMITH, 79-80
  Living ice, understanding glaciers and glaciation by R.P. Sharp, reviewed by L. REYNAUD & C. LORIUS, 293
  Man in the Antarctic: the scientific work of the International Biomedical Expedition to the Antarctic (IBEA) edited by J. Rivolier, R. Goldsmith, D.J. Lugg & A.J.W. Taylor, reviewed by S.E. WILCOCK, 81-82
  Mawson's Antarctic diaries edited by F. Jacka & E. Jacka, reviewed by V.E. FUCHS, 179-184
  Microbial ecoystems of Antarctica by W.F. Vincent, reviewed by D.D. WYNN-WILLIAMS, 179-180
  Natural history of the Antarctic Peninsula by Sanford Moss, reviewed by G.L. KOOYMAN, 375
  Palaeontological results of the Polish Antarctic expeditions —Part I edited by A. Gazdzicki, reviewed by M.R.A. THOMSON, 78
  Polar ecology by Bernard Stonehouse, reviewed by R.E. LONGTON, 292-293
  Proceedings of the Symposium on Macquarie Island, University of Tasmania, 11–15 May 1987 edited by M.R. Banks & S.J. Smith, reviewed by D.W.H. WALTON, 78-79
  Reindeer on South Georgia. The ecology of an introduced population by N. Leader-Williams, reviewed by T. SKOGLAND, 181-182
  Satellite image atlas of glaciers of the world: Antarctica (USGS Professional Paper 1386B) by Charles Swithinbank, reviewed by D.E. SUGDEN, 183-184
  South Georgia, British Antarctic Survey GEOMAP Series, Sheet 1, 1:250 000 geological map and supplementary text by D.I.M. Macdonald, B.C. Storey & J.W. Thomson, reviewed by A.F. TRENDALL, 80-81
boundary layer studies,
  atmospheric studies at Halley station, 65-75
Brabant Island,
  Holocene ice fluctuations,165-166
BRANDT, A. (*with* J.W. WÄGELE), 205-214
Breid Bay,
  sea-ice chemistry, 261-268
BREWER, T.S., 151-155
BROADY, P.A., 109-118, 215-224

BROWN, C.R., 15-21
Bryozoa feeding,
by *Gnathiphimedia mandibularis*, 343-344
BUCHHOLZ, F. (*with* D.J. MORRIS & J.L. WATKINS), 301-306
BÜHMANN, D. (*with* K. HALL), 235-238
BURTON, H.R. (*with* K. GREEN & R. WILLIAMS), 317-324

Cambrian fossils,
upper Beardmore Glacier area, 249-260
carbon,
in benthic mats of McMurdo Ice Shelf ponds, 125-131
carbon dioxide exchange
Usnea sphacelata, 31-34
cartography, 351-362
Champsocephalus sp., 317-324
chick feeding,
in diving petrels, 337-342
chlorophyll *a*,
in frazil ice, 313-316
related pigments in ponds of McMurdo Ice Shelf, 125-131
chlorophyta,
at Edward VII Peninsula, 215-224
chondrites, 3-14
CHOWN, S.L., 23-30
CLARKE, A.,
review of *BIOMASS Scientific Series No. 9. Biology and ecology of the Antarctic krill (*Euphausia superba *Dana): a review*, 375-376
CLOSE, A.R. (*with* D.L. GARRISON & E. REIMNITZ), 313-316
Coats Land,
Mesozoic dolerites, 151-155
cold adaptation,
teleost blood, 119-124
COLEMAN, C.O., 343-344
common diving petrels,
chick feeding, 337-342
continental margins,
sedimentary basins, 51-56
Copepoda,
in a South Georgia fjord, 141-150
Cretaceous angiosperms,
at Livingston Island, 239-246
CRIPPS, G.C., 307-312
CULLIS, A. (*with* K. HALL & C. MOREWOOD), 45-50
Cumberland East Bay,
distribution of zooplankton, 141-150
cyanobacteria,
at Edward VII Peninsula, 215-224
in benthic mats of McMurdo Ice Shelf ponds, 125-131
in soils from Wilkes Land, 225-234
Cymodocella tubicauda, 205-214

D'AVINO, R. (*with* G. DI PRISCO), 119-124
diatoms,
changes in lipid composition, 133-140
diet,
diving petrel chicks, 337-342
Ectemnorhinini, 23-30
fur seals, 317-324
DI PRISCO, G. (*with* R. D'AVINO), 119-124
diving petrels,
chick feeding, 337-342
dolerites, Mesozoic,
Whichaway Nunataks, 151-155
DONELAN, J. (*with* H. HEATWOLE, P. SAENGER, A. SPAIN & E. KERRY), 225-234
DOWNES, M.T. (*with* C. HOWARD-WILLIAMS, R. PRIDMORE & W.F. VINCENT), 124-131
DREWRY, D.J., 2

Early Palaeozoic history
upper Beardmore Glacier area, 249-260
ecological modelling,
Eudyptes penguins, 15-21
Ectemnorhinini,
biogeography, 23-30
editorials
Antarctic microbes, endemism and environmental monitoring by W.F. VINCENT, 95
Antarctic place-names by G. HATTERSLEY-SMITH, 299
Science in Antarctica — a matter of quality by D.J. DREWRY, 2
Treaty on Antarctic minerals and oil — what impact on science and environment? by J.C. BEHRENDT, 191
Edward VII Peninsula,
survey of algae, 215-224
Ekman layer theory, 279-290
Elatocladus fossil leaves, 35-44
Ellsworth Land,
plant megafossils, 35-44
energy requirements
Eudyptes penguins, 15-21
English Coast,
plant megafossils, 35-44
entomology, 23-30
enzymes,
in teleosts, 119-124
Erebus Glacier Tongue,
random vibration, 157-163
Erebus volcanic province,
geology, 345-350
Erehwon Nunatak,
plant megafossils, 35-44
Eudyptes chrysocome, 15-21
E. crysolophus, 15-21
Eudyptes penguins, 15-21
Euphausia superba, 301-306
euphausid ecology, 301-306
Exosphaeroma gigas, 205-214

Ferrar type dolerites,
Whichaway Nunataks, 151-155
Filchner Depression,
thermohaline circulation model, 325-336
fish
fur seal diet, 317-324
muscles, 97-108
FLINT, C.P. (*with* J.D. HANSOM), 165-166
floating ice tongues,
random vibration, 157-163
flux transfer events,

polar cusp ionosphere, 193-203
food consumption
Eudyptes penguin, 15-21
frazil ice,
concentration of organisms, 313-316
FUCHS, V.E.,
review of *Mawson's Antarctic diaries*, 179-180
fungi,
in soil samples from Wilkes land, 225-234

'Gandalf Ridge' (unofficial name),
geology, 345-350
GARRISON, D.L. (*with* A.R. CLOSE & E. REIMNITZ), 313-316
gas,
presence in sedimentary basins, 51-56
GEE, C.T., 35-44
geochronology, 345-350
geographic information systems, 351-262
Glossopteris leaf fossils, 35-44
Gnathiphimedia mandibularis, 343-344
GRAHAM, A.L. (*with* J.O. ANNEXSTAD), 3-14
Graham Land,
Late Jurassic-Early Cretaceous strike-slip deformation in the Nordenskjöld Formation, 269-278
gravity waves, internal,
atmospheric studies at Halley station, 65-75
GREEN, K. (*with* H.R. BURTON & R. WILLIAMS), 317-324
GUI, E.H. (*with* V.A. SQUIRE), 157-163

haemoglobin,
in teleosts, 119-124
HALL, K.,
with D. BÜHMANN, 235-238
with A. CULLIS & C. MOREWOOD, 45-50
Halley station,
acoustic sounding the the atmospheric boundary layer, 363-372
internal gravity waves, 65-75
low-level wind profiles, 169-178
HANSOM, J.D. (*with* C.P. FLINT), 165-166
HAREN, J. (*with* J.-L. TISON), 261-268
HATTERSLEY-SMITH, G., 299
Heard Island,
diet of fur seals, 317-324
HEATWOLE, H. (*with* P. SAENGER, A. SPAIN, E. KERRY & J. DONELAN), 225-234
HELLMER, H.H. (*with* D.J. OLBERS), 325-336
Henkle Peak,
plant megafossils, 35-44
Holocene ice fluctuations,
on Brabant Island, 165-166
HOWARD-WILLIAMS, C. (*with* R. PRIDMORE, M.T. DOWNES & W.F. VINCENT), 125-131
hydrocarbons,
in sea-ice diatoms, 133-140
problems in identification, 307-312

ice chemistry, 261-268
ice fluctuations,
on Brabant Island, 165-166
ice sheet,
surface drainage flow, 279-290
ice shelf,
thermohaline circulation beneath, 325-336
ice tongues, floating,
random vibration, 157-163
internal gravity waves,
atmospheric studies at Halley, 65-75
International Map of the World, 351-362
Isopoda, sphaeromatid
Cymodocella tubicauda, 205-214
Exosphaeroma gigas, 205-214
isotope studies,
first-year sea ice from Breid Bay, 261-268
